

This instruction is intended for persons who are students of the Opole University of Technology. To get access to free software, you need to set up a university e-mail account in the Office 365 service. In order to do so, follow the steps below in the indicated order.

## Step 1

Go to the website <https://estudent.po.opole.pl> and log in with your account credentials. Please remember to correctly rewrite the code from the picture. If you have accidentally failed to store your credentials when creating an account or if you have forgotten them, you can use the password reminder option.

You will find more info in Services

**Microsoft Office 365**

Use a free e-mail account, be in touch with the dean's office and lecturers.

Thanks to the account in Office 365 You will be able to use the free software by programs such as: DreamSpark (including MS Office), Photosynth, Autodesk.

## Step 2

After logging in to the eStudent portal, activate the e-mail account in the domain @student.po.edu.pl, in the Office 365 service. To do this, select the *Software option (Office 365)* from the main menu and then the option "Create an account". Continue following the on screen instructions.

The e-mail account will be associated with you throughout the period of your study at the Opole University of Technology – it will be used for contacts with the Student Service Center as well as with lecturers conducting your courses. By means of that account you will also gain access to other services and programs. Details are available on the eStudent portal.

When creating your e-mail account, in addition to the name you choose, the account will be automatically assigned a so-called *alias*, with your student album number preceded by the letter "s", e.g.: s12345@student.po.edu.pl

Messages sent to the domain *alias* will automatically be forwarded to the primary account.

## Step 3

Log in to the eStudent portal and go to the Software section (Office 365), then Software -> More

Go to Microsoft Azure

**Software**

The following is information about access to the software that you can download for free for educational purposes as a student at the Opole University of Technology. The condition to obtain access to free software is to have an e-mail account in the student.po.edu.pl domain. If you do not have an email account in the student.po.edu.pl domain, you can create one in the My Software (Office 365) section.

---

**Access to the software**

Depending on the software, access to it is possible via the manufacturer's website or the University's server (this information is included in the description). Software for students sharing on the University's server can be found in the section [Software Keys](#).

---

**List of software**

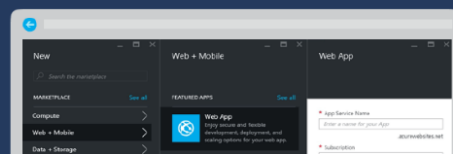

Azure for Students Starter gets you started with the Azure products you need to develop in the cloud at no cost to you, providing free access to the necessary products and free software (including Microsoft Windows 10). For more information, please visit [this site](#) .

## Azure for Students Starter FAQ

Activate >

### What is Azure for Students Starter?

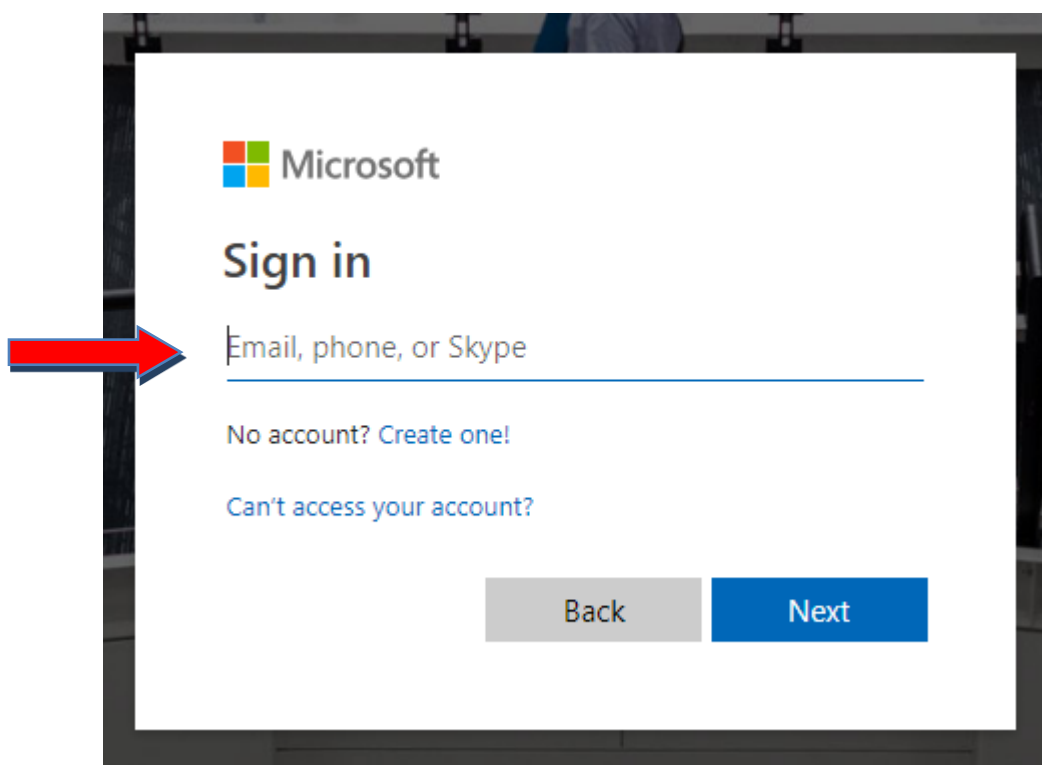

Azure for Students Starter gets you started with the Azure products you need to develop in the cloud at no cost to you\*. This benefit provides you access to a free tier of the following services:

- **Azure App Services.** A fully-managed cloud offering that enables you to build and deploy native and web apps in minutes. Use the technology you love—ASP.NET, Java, PHP, Node.js or Python. Add a variety of essential app services including authentication, social integration, offline data sync, and more, regardless of whether your app runs on Windows 10, iOS, or Android. Set up continuous integration and deployment workflows with VSO, GitHub, TeamCity, Hudson, or BitBucket—enabling you to automatically build, test, and

Caution: after logging in to the Microsoft Azure portal, by accepting Terms and Conditions, you have the option of using paid content provided by Microsoft. To get your paid content, you'll need to add a new subscription, you can find more information here: <https://azure.microsoft.com/en-us/offers/ms-azr-0003p/>.

**The University is not responsible for subscriptions added by the student, and thus does not take financial responsibility for subscriptions selected / purchased by the student.**

Log in with your Office 365 account

Education - PREVIEW

Windows 10 Version 1809 (Update Sept 2018)

For this multi-edition Consumer media, use a product key specific to the edition in the list you want to activate. From the desktop, select the Start button > Settings > Update & Security > Activation. Select Change product key and enter your product key. If the key is valid, you'll be asked to confirm the edition change, and Windows then performs it for you. Windows 10 Professional, version 1709 or newer, will need to be installed before using the Windows 10 Pro for Workstation product key to activate the edition. Both Windows 10 Professional and Windows 10 Pro for Workstations product keys will activate Windows 10 Professional, version 1709 or newer media.
